

Recycling points

For the most common types of waste

All cities and villages provide recycling points which are all equipped with **six individual disposal bins.**

This goes to the recycling points:

- Beverage cartons
- Paper
- Cans made out of aluminium or tin sheet
- Flint glass, brown glass, green glass (three separate disposal bins available!)

Please note: Always ensure the different colour glass is put in the bin provided for such colour!

Did you pay a deposit for cans or bottles?

In Germany there is a deposit due on most drinks cans and bottles. Therefore: Take the empty cans and bottles back to the supermarket or beverage shop to get your deposit back.

This is how much deposit is charged per item:

<p>Cans of beer or lemonade. 25 Cent</p>	<p>Non-returnable plastic bottles 25 Cent</p> <p>Watch out for this sign!</p>
<p>Returnable bottles 15 Cent</p> <p>Watch out for this sign!</p>	<p>Beer bottles 8 Cent</p>
